

Assignment 6

Accessing the BC Land, Title, and Service Authority Website

In this assignment you will practice accessing the BC LTSA website and viewing a document stored at the Surveyor General Division.

Instructions

1. To begin the assignment, print the instructions (current page only).
2. Open the web browser, type “Google” into the search window, and click on the Google site.
3. In the Google search window, type “BC LTSA.” When the results appear, click the item that reads “LTSA | Homepage.”
4. In the “search” box on the home page of LTSA, type “historical records” and enter.
5. The third item in the resulting list should be “Historical Records Samples.” Click on the accompanying link to get some sample images of different historical records available at LTSA. Click on each link in turn and examine the documents—they are not always easy to read. Use the back button on your browser to return to the list.
6. On the right-hand side of the page, you should see a list of different types of records.
7. Read through this section, clicking on the different record types to get a page with more detailed information and more sample images. You may right click and save any of these images to your desktop if you wish.
8. When you have completed this assignment, remember to save your work, close the assignment and return to Unit 4-7 of the course.
